

List of companies visiting Belgium on the occasion of the Wuhan Biolake Delegation on May 17, 2019

Wuhan Biolake (Science Park) Management Committee

The Wuhan National Bio-industry Base, also known as the Biolake Science Park, is China's second largest state-level biotech industrial base in view of overall strength, located in Wuhan East Lake High-tech Development Zone. Its six major parks are specialized in biology innovation, biomedicine, bio farming, medical devices, medical health and bioenergy. They have developed a strong basis, and they are currently planning an additional Sino-Singapore biotech park and a bio-manufacturing park, which will make the Biolake a thorough R&D, incubation, production, logistics, administration and residential complex.

The base's current tenants include eight of the world's Top 500 companies, 16 listed companies and 258 high-level startup teams from home and abroad. It generates one billion yuan of taxes a year, has gathered more than 30,000 professionals, and is now a first-class park nationally.

Companies in Bio-lake Delegations:

1. ANKON Technologies Co., Ltd (formerly ANKON Optoelectronic Technology

Founded in 2009, ANKON Technologies Co., Ltd is a high-tech company specialized in medical device, integrating R&D, production and distribution. Its wholly-owned subsidiary ANKON Medical Technologies (Shanghai) Co., Ltd, established in 2014, is a company that independently develops and commercializes the "**Magnetically Controlled Robotic Capsule Endoscope**". ANKON NaviCam® "Magnetically Controlled Robotic Capsule Endoscope" can accurately **examine the stomach of the human body**. It is approved by CFDA (now NMPA) and gains a class III medical device registration certificate titled as "Magnetically Controlled Robotic Capsule Endoscope".

Cooperation needs and business objectives:

- promotion of Ankon NaviCam® "Magnetically Controlled Robotic Capsule Endoscope" and Ankom capsule Endoscope for small intestines,
- Look for medical device distribution partner.

2. China National Medical Devices Co., Ltd. (CMIC)

Founded in 1966, China National Medical Device Co. Ltd. (CMIC) is a subsidiary of Sinopharm Group that has **the largest national commercial distribution and service operation center in the Chinese medical device sector**. CMIC has provided **over 6,000 end-clients and hundreds of domestic and foreign companies** with integrated solutions such as product, healthcare and distribution management, in an attempt to build an open, multi-dimensional and innovative win-win ecosystem.

Cooperation needs and business objectives:

- Connect with Belgian medical device companies who are searching for Chinese distribution partners in the market.
- Look for Belgian companies who are interested in technology partnership with Chinese companies.

3. Kindstar Global Technology, Inc.

Kindstar Global Technology, Inc. is a **leading-edge medical esoteric testing service group in China**. Its main customers include China's top hospitals, specialty hospitals and comprehensive hospitals. Kindstar has an experienced management team that has worked in US academic institutes for more than 10 years.

Its laboratories based in Beijing, Shanghai, Chengdu and Wuhan can **provide tests in hematology, oncology, medical genetics, cardiovascular diseases, infectious diseases and autoimmune diseases to medical specialties including internal medicine department, surgery department, gynecology department and pediatrics department**. Kindstar also provides medical research, clinical trial services and translational medicine study services to physicians, medical science and technology institutions and pharmaceutical companies.

Cooperation needs and business objectives:

- esoteric testing technology cooperation with European medical esoteric testing service group or universities,
- explore European medical esoteric testing market, promote the application of Kindstar's medical esoteric testing in China.

4. Wuhan Zoncare Bio-medical Co., Ltd.

Wuhan Zoncare Bio-medical Electronics Co., Ltd. is a **leading medical equipment manufacturer** in China. Founded in 2005, Zoncare is devoted to the development of **Ultrasound Imaging System and electrocardiograph** and now it is a **professional product solution supplier**. Zoncare owns two research centers in Wuhan and Beijing and invests more than 15% of its turnover into product research every year. In the international market, Zoncare has already cooperated with more than 70 distribution partners. They provide a greatly comprehensive service and after-sales training for their customers. Currently, Zoncare products have been distributed in more than 80 countries and regions, and it has established international in the U.S., Germany, India, Egypt and Mexico.

Cooperation needs and business objectives:

- looking for distribution partner in EU for their products line.
- look for zoncare brand trademark's European registration.

5. Biohub International Biotechnology Co.,Ltd.

Biohub International Corporation is an incubator that has been acting as a bridge between overseas biotech companies and the huge Chinese market to assist them in finding reliable partners. Their services are intended to both domestic and international clients. They provide **investment and consulting services, promote technology cooperation and transfer activities and registration** with the Chinese Food and Drug Administration.

Cooperation needs and business objectives :

- They are looking for EU innovative life science and medical technologies that are interested in China market and also looking for partners (Life science industrial parks, VC funds, service firms) that are interested in bringing European medical companies into China market.

6. Humanwell Group

Founded in 1993 by a group of passionate college graduates, Humanwell Healthcare has grown into a fully integrated healthcare solutions provider. With headquarters in the center of China, Humanwell operates and serves its customers in over 50 countries and districts, especially in Asia countries, Africa and US. Humanwell is the market leader in **anesthetics/analgesics, fertility regulation drugs, and Uyghur medicine** in Asia. It is also a major player with expanding product portfolio and market shares in treating central nerve system (CNS), respiratory and dermatological diseases in China.

Cooperation needs and business objectives:

Look for partnerships in the domain of anesthetics, fertility regulating drugs; biological products; in vitro testing; blood products. Their international development needs are the following: heavy new drugs (second and third phase clinical).
